

Recycle Better™ Sorting Game

1. **Start by cutting out the 5 bin cards and the 48 item cards.** The bins represent: Trash, Food Waste, Recycling, Reuse or Donate, Special Drop-Off Locations or Store Recycling.
2. **Designate a Recycling Captain.** This person will be in charge of telling the players after each turn if they've put the item into the correct bin and explaining why.
3. **Place the item cards face down** and line up the 5 bins.
4. **Take turns going around in a circle.** When it's your turn, pick up one item card from the pile.
5. **Look at your item card and place it in the bin you think it goes into after it is no longer of use to you.** Pay attention to condition notes (e.g., "gently used, clean") and remember that some items—like batteries and paint cans—must go to Special Drop-Off Locations.
6. **If you placed the item into the correct bin, award yourself one point.** Keep a tally of your score. The player with the highest point total at the end wins.

Let's **Recycle Better™** Together! Learn more at casella.com/RecycleBetter

Recycling

Clean paper, cardboard, glass,
metal cans, and certain plastics.

Food Waste

Food scraps and other items
that break down naturally.

Trash

Things that can't be recycled,
composted, or reused.

Special Drop-Off Locations or Store Recycling

Items that need to go to a special
location for safe disposal or recycling.

Reuse or Donate

Give items a second life! Donate clean,
working items or reuse at home.

Recycling Captain Reference Guide

⊘ DON'T PUT THESE IN YOUR RECYCLING BIN

BATTERIES & ELECTRONICS: Can start fires. Take to a battery or e-waste drop-off.
PLASTIC BAGS & ZIP BAGS: Jam machines. Bring to store recycling bins.
AEROSOL CANS: Can explode. Dispose at a hazardous waste site.

PAINT CANS: Chemicals can pollute. Special disposal needed.
LIGHT BULBS (CFL): Have mercury. Take to a safe drop-off.
